SUMMARY

Full-stack engineer with 5+ years building scalable web applications and AI-powered products. Led development of SaaS platforms serving 50K+ users. Passionate about clean architecture and developer experience.

EXPERIENCE

Senior Software Engineer

TechCorp Inc.

Jan 2022 — Present

- Designed and built a multi-agent AI pipeline processing 10K+ documents daily, reducing manual review time by 85%
- Led migration from monolith to microservices on GCP (Cloud Run, Pub/Sub, Cloud SQL), improving deploy frequency from weekly to 20x/day
- Architected a RAG-based internal knowledge search tool over 500K+ documents using Vertex AI and pgvector, cutting support resolution time by 40%
- Owned end-to-end reliability of three core services (99.9% SLA); introduced distributed tracing with OpenTelemetry, reducing mean time-to-detect by 55%
- Drove adoption of trunk-based development and feature flags, eliminating 3-week release cycles
- Mentored team of 4 junior engineers, establishing code review standards and CI/CD best practices

Software Engineer

StartupXYZ

Jun 2019 — Dec 2021

- Built real-time analytics dashboard using React, D3.js, and WebSockets serving 5K concurrent users
- Implemented credit-based billing system with Stripe integration, generating \$2M ARR
- Reduced API response time by 60% through Redis caching and PostgreSQL query optimization
- Designed multi-tenant data isolation layer, enabling enterprise tier launch and landing 8 Fortune-500 pilots
- Migrated CI pipeline from Jenkins to GitHub Actions, cutting build times from 22 min to 7 min
- Shipped mobile-responsive redesign that increased free-to-paid conversion rate by 18%

Junior Developer

DevAgency

Aug 2017 — May 2019

- Developed 12+ client websites using React and Node.js with 98% client satisfaction rating
- Created reusable component library adopted across 3 development teams, reducing page build time by 35%
- Integrated third-party APIs (Salesforce, HubSpot, Twilio) for 5 enterprise clients, automating lead-capture workflows
- Optimised Core Web Vitals scores across 8 sites, improving average Lighthouse performance score from 54 to 91

SKILLS

Backend: Python, TypeScript, Node.js, FastAPI, GraphQL

Frontend: React, Next.js, Tailwind CSS, D3.js, WebSockets

Cloud & DevOps: GCP, AWS, Docker, Kubernetes, CI/CD, Terraform

AI / ML: LangChain, OpenAI API, HuggingFace, RAG pipelines, Vector DBs

Data & Infra: PostgreSQL, Redis, BigQuery, Pub/Sub, Elasticsearch

EDUCATION

University of Texas at Austin

2013 — 2017

Bachelor of Science in Computer Science

GPA: 3.8

CERTIFICATIONS

Google Cloud Professional Cloud Architect — Google	2023
AWS Solutions Architect Associate — Amazon	2021
