SUMMARY

Full-stack engineer with 5+ years building scalable web applications and AI-powered products. Led development of SaaS platforms serving 50K+ users. Passionate about clean architecture and developer experience.

EXPERIENCE

Senior Software Engineer

Jan 2022 — Present

TechCorp Inc.

- Designed and built a multi-agent AI pipeline processing 10K+ documents daily, reducing manual review time by 85%
- Led migration from monolith to microservices on GCP (Cloud Run, Pub/Sub, Cloud SQL), improving deploy frequency from weekly to 20x/day
- Mentored team of 4 junior engineers, establishing code review standards and CI/CD best practices

Software Engineer

Jun 2019 — Dec 2021

StartupXYZ

- Built real-time analytics dashboard using React, D3.js, and WebSockets serving 5K concurrent users
- Implemented credit-based billing system with Stripe integration, generating \$2M ARR
- Reduced API response time by 60% through Redis caching and query optimization

Junior Developer

Aug 2017 — May 2019

DevAgency

- Developed 12+ client websites using React and Node.js with 98% client satisfaction rating
- Created reusable component library adopted across 3 development teams

EDUCATION

University of Texas at Austin

2013 — 2017

Bachelor of Science in Computer Science — GPA: 3.8

SKILLS

Python

TypeScript

React

Next.js

FastAPI

PostgreSQL

Redis

Docker

Kubernetes

GCP

Firebase

Stripe

LangChain

CI/CD

System Design

Google Cloud Professional Cloud Architect — Google (2023)

AWS Solutions Architect Associate — Amazon (2021)
