Austin, TX | +1 (555) 123-4567 | thejesh@example.com | linkedin.com/in/thejesh | thejesh.dev

SUMMARY

Full-stack engineer with 5+ years building scalable web applications and AI-powered products. Led development of SaaS platforms serving 50K+ users. Passionate about clean architecture and developer experience.

EXPERIENCE

Senior Software Engineer

TechCorp Inc.

Austin, TX

Jan 2022 — Present

- Designed and built a multi-agent AI pipeline processing 10K+ documents daily, reducing manual review time by 85%
- Led migration from monolith to microservices on GCP (Cloud Run, Pub/Sub, Cloud SQL), improving deploy frequency from weekly to 20x/day
- Mentored team of 4 junior engineers, establishing code review standards and CI/CD best practices

Software Engineer

StartupXYZ

Jun 2019 — Dec 2021

- Built real-time analytics dashboard using React, D3.js, and WebSockets serving 5K concurrent users
- Implemented credit-based billing system with Stripe integration, generating \$2M ARR
- Reduced API response time by 60% through Redis caching and query optimization

EDUCATION

University of Texas at Austin

Bachelor of Science in Computer Science

2013 — 2017

GPA: 3.8

SKILLS

Technical Skills: Python, TypeScript, React, Next.js, FastAPI, PostgreSQL, Redis, Docker, Kubernetes, GCP

PROJECTS

Resume Tuner

2024 — Present

AI-powered resume tailoring SaaS. Multi-agent pipeline using FastAPI, Typst, and GPT-4o serving thousands of users.

OpenMetrics Dashboard

2023

Real-time observability dashboard built with React, D3.js, and WebSockets. Supports Prometheus and OpenTelemetry data sources.

AWARDS

Best Innovation Award, TechCorp Inc.

2023

Dean's List, University of Texas at Austin

2016

PUBLICATIONS

On the Asymptotic Accuracy of Efron's Bootstrap

1981

Singh, Kesar The Annals of Statistics, Vol. 9, No. 6, pp. 1187–1195, Institute of Mathematical Statistics
DOI: 10.1214/aos/1176345636

In the non-lattice case it is shown that the bootstrap approximation of the distribution of the standardized sample mean is asymptotically more accurate than approximation by the limiting normal distribution.

Approximate Tests of Correlation in Time-Series

Quenouille, M. H. *Journal of the Royal Statistical Society. Series B (Methodological)*, Vol. 11, No. 1, pp. 68–84, Royal Statistical Society, Wiley
